

Manufacturing & Logistics

Streamline and Scale Your Operations Across the Nation

More than two-thirds of Americans shop online, and customers' expectations for product availability, competitive pricing, and timely delivery are higher than ever. As supply chains adapt to meet these demands, manufacturing and logistics teams must stay agile to maintain fast, quality performance.

One of the pain points preventing manufacturers from achieving this is the ability to find and hire qualified talent quickly and efficiently.

Fountain has redefined the recruiting standard to help manufacturers simplify and streamline their hiring process through the following features:

Automated

Screen, engage, and onboard candidates by leveraging automated scheduling, SMS, video interviews, and document signing. Calendar syncing allows you to schedule interviews at a time that works for you and the candidate. Use the chatbot to keep candidates engaged by answering FAQs and fostering conversation.

Integrated

Fountain's technology was built to work with existing systems in your hiring funnel. Seamless integration helps improve the candidate experience, reduce drop-off, and increase conversion rates.

fountain

Source, screen, and hire on the go. Candidates can apply anytime, anywhere via their email address on their mobile phone (iOS or Android). 'Text to Apply' helps amplify awareness of job opportunities, collect passive applicant data, and provide an engaging candidate experience.

Fountain's simple interface and drag-and-drop workflows enable managers to quickly hire and onboard while running their business. Features are tailored to your specific needs and scale with you as you grow. Use the location-, region-, and company-level dashboards for real-time analytics.

"We received 358 applicants. Made offers to 142 candidates. Of those, 110 successfully meet the accurate background criteria, due to the speed and responsiveness of the program we were able to successfully onboard 84 new employees during that time. The results were amazing! This has cut our hiring time in half!"

- Al Jacobs, Primetime Logistics

Fountain's high volume hiring platform empowers the world's leading brands to streamline and scale their recruiting function. Our mobile-first platform keeps candidates engaged, and moves quality talent through the pipeline, reducing time to fill. Fountain enables employers globally to make data-driven decisions and attract the best candidates.
