

One-way & live video interviews

Make hiring less stressful and more convenient with live and on-demand video interviews

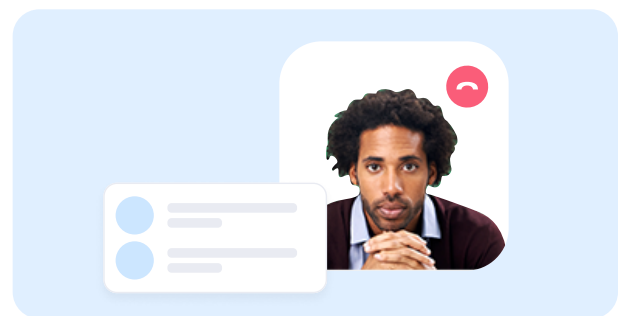

How it works

Enhance your Fountain platform with live and on-demand video interviewing. Video provides flexibility to both recruiters and candidates so they can record or review the videos at a time and place that works best for them. Once video interview is activated, simply add the stage to your workflow and connect it to your calendar.

Assess soft skills

Go beyond the traditional resumé and let the candidate's personality and soft skills stand out. Use scorecards to rate candidates with teammates in realtime to make better, faster hiring decisions.

Increased convenience

With on-demand video interviews, candidates no longer have to worry about traveling or taking time off work to interview, and busy hiring managers can choose when to watch the recordings.
