HERE'S HOW

Integrations

Integrates with your existing hiring tools for efficient sourcing, screening, and hiring. Workers can upload necessary certifications, such as Food Safety certification, Food Handler's card

BENEFIT
A streamlined hiring process with powerful HRIS integrations paves the way for substantial time and cost savings.

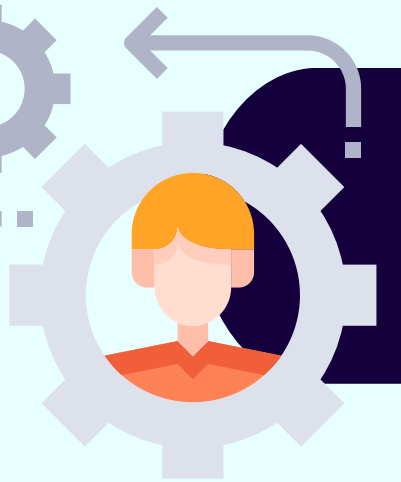

Communication

Creates an unparalleled experience with automated SMS reminders, WhatsApp messages, and emails; uses integrated, personalized, and automated communication methods that send reminders and follow-ups, keeping applicants engaged.

BENEFIT
Communication features allow you to meet your candidates where they already are: on their phones. Increased engagement typically leads to higher-quality hires and improved conversion rates.

Automation

Automates tasks that were manual with previous systems, like routing candidates to the appropriate stage of the hiring funnel based on answers to knockout questions.

BENEFIT
Automation helps free up time, allowing you to focus on other aspects of the candidate experience, like personalization and human connection.

BONUS
Incorporating Fountain AI in high-touch areas, like the early stages of the hiring process, allows you to respond to candidates quickly while attending to other duties that require the human touch.

Data and Reporting

Captures the big picture of your hiring funnel to make more informed decisions; optimizes the hiring process by building upon the features that are producing results and removing or replacing the steps that are slowing candidates down.

BENEFIT
Robust reporting provides insights into the greater hiring process, keeps recruiters informed of what's working and what's not, and offers real-time analytics to enable quick fixes to the funnel.

Customization

Creates workflows tailored to candidates' preferences while allowing them to choose when and how to interact with you.

BENEFIT
Customizing the hiring process keeps applicants engaged and creates trust between you and the candidate, increasing their likelihood of accepting an offer and even contributing to worker longevity.
